The PT5E encoder-based cable-extension transducer offers a unique thermoplastic cable that has virtually an infinite fatigue life. This cable, known as V62, has properties that are superior for high cycle and rugged applications.

Like Celesco's other transducers, the PT5E installs in minutes, functions properly without perfectly parallel alignment, and fits easily into small areas. The PT5E offers additional installation flexibility since its cable exit can be rotated relative to the mounting surface, providing four different cable exit orientations.

① Total accuracy includes uncertainty due to resolution and is calculated: $\pm \{[(\%FS)(FS) + \text{length of 1 pulse}]\}$

Example: Model Number: PT5E-100-N34-FR100-AB-TTL-M6

Full Stroke: 100 inches

Accuracy: $[\text{.07\% (100 in.)} + 1/100 \text{ in.}] = \pm .08 \text{ inches}$
