PT5AV

Industrial Grade • Position/Velocity Output

Linear Position/Velocity to 250 inches (6350 mm) **Hard Anodized Aluminum Enclosure High Cycle Applications IP67 • NEMA 6 Protection**

GENERAL

0-10 to 0-250 inches **Full Stroke Range Options**

POSITION

Output Signal	voltage divider (potentiometer)
Accuracy	see ordering information
Repeatability	see ordering information
Resolution	essentially infinite
Sensor p	lastic-hybrid precision potentiometer
Potentiometer Cycle Life	see ordering information
Input Resistance Options	500, 1K, 5K or 10K Ω
Power Rating, Watts	see ordering information
Recommended Maximum Input Vol	tage see ordering information
Output Signal Change Over Full Stro	oke Range 94% +4% of input voltage

VELOCITY

Output Signal		DC voltage
Linearity	better than ±0.10	% of output at any velocity
Repeatability		±0.10% of reading
Maximum Velocity • Retract	tion Acceleration	see ordering information
Sensor		tach generator
Input Voltage		none required
Output Voltage @ 100 in. pe	er minute (varies sli	ghtly w/measuring cable)
N34 cable option		354 mV ±4%
S47 cable option		352 mV ±4%
V62 cable option		351 mV ±4%
Output Impedance		350 ohms ±10%
Output Ripple (for velocity	≥ 1.35 inches per se	econd) ±3% rms

GENERAL

Measuring Cable Options	stainless steel, nylon-coated or thermoplastic
Enclosure Material	hard anodized aluminum
Weight	5 lbs. max.

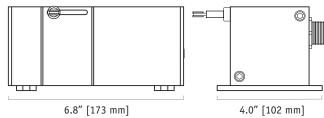

ENVIRONMENTAL

Enclosure	NEMA 4/6, IP 65/67
Operating Temperature	-40° to 200°F (-40° to 90°C)
Vibration	up to 10 g to 2000 Hz maximum

20630 Plummer Street • Chatsworth, CA 91311 tel: 800.423.5483 • +1.818.701.2750 • fax: +1.818.701.2799

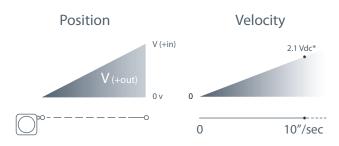

The PT5AV is a combination position and velocity transducer. A precision plastic-hybrid potentiometer provides accurate position feedback while a self-generating DC tachometer provides a velocity signal that is proportional to the speed of the traveling measuring cable.

Like Celesco's other transducers, the PT5AV installs in minutes, functions properly without perfectly parallel alignment, and fits easily into small areas. The PT5AV also has an optional unique thermoplastic measuring cable that has virtually an infinite fatigue life for high-cycle applications.

Output Signal:

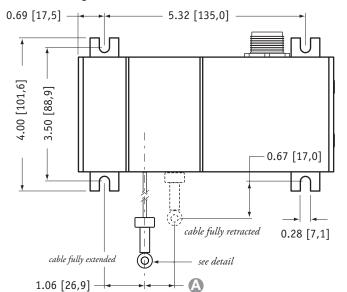

*velocity output rate = $354 \text{ mV} \pm 4\%$ @ 100 inches per min.
